What does industry limited mean?

Network In Action - Sumner County | Donelson groups are industry limited, meaning that while only one member per industry has a spot in each group. For example, there is only one realtor spot in the Sumner County group, but that member is welcome to attend any of the other groups, as well. Your spot in a group is not guaranteed until you have submitted an application and paid your deposit.

How does this differ from other area networking groups?

While networking is an important aspect of Network In Action, it is just one of the tools we provide to you in order to help grow your business. Beyond the monthly networking groups that are led by professionals (no volunteer group leadership!), you have access to reputation management software, social media video filming and editing, a CRM, and much more.

What is required of me as a member?

Members are expected to attend the monthly meeting for their assigned group, pass referrals as appropriate, and abide by NIA policies.
